

Our Lady of Lourdes Catholic Primary School
Executive Headteacher: Mrs Sally Nutman

035

13th September 2017

Dear Parents,

NUT FREE ZONE

I am sure that you have all heard about Anaphylactic Shock - or Peanut Allergy - which has dire consequences for the children with this syndrome. (In most cases these children also suffer from asthma or eczema).

We have some anaphylactic children at Our Lady of Lourdes School and since any contact with peanuts can activate Anaphylactic Shock I feel that the least we can do is remove the risk in a positive and caring way. Therefore I request that you do not give your child peanuts or peanut butter sandwiches to eat at school. (The school kitchen is also a 'nutfree' zone).

If you wish to find out about Anaphylaxis and the procedure we have in place for dealing with attacks in school I would be more than pleased to go over it with you.

Many thanks for your cooperation in this matter.

Yours sincerely

Headteacher
